

Counterbalance HYDRAULIC TROLLEY CRANES

Three position telescopic jib is fitted to all models. Fitted with swivel castors at one end so all models will turn on the spot.

All models are constructed with small compact frame giving a good reach and high lift.

- Designed for use on the factory floor.
- Completely at home in the workshop.
- All models are fitted with swivel hook and hook safety latch.
- Container for holding ballast is supplied with each model.

BALLAST NOT SUPPLIED

If less ballast, than the stated amount is used, the safe working load capacity will be reduced.

This range of Counterbalance Cranes will fulfill a large number of light duty workshop requirements, giving the operator complete freedom of movement at the front lifting area.

There are five models in this range with capacities as model number:— C.T.C.1000 = 1000 kg; C.T.C.750 = 750 kg; C.T.C.508 = 508 kg; C.T.C.254 = 254 kg; C.T.C.152 = 152 kg.

All models are tested with 25% overload and Test Certificate is issued with each crane. (As required by the Factories Act).

Hard chrome ground hydraulic ram and double acting pumps fitted to ALL MODELS.

The load is lowered by hand operated control valve on ALL MODELS.

Trolley/Crane Models C.T.C.750 and C.T.C.1000 fitted with C-1 Wheels with hard rubber tyres as standard.

- All models fitted with relief valve to prevent Overload.
- Top quality hydraulics fitted with chrome-plated piston rod on ram and pump.
- If the model you require is not on this leaflet please contact us at the CAM works. We can produce one off units to a Customers specific requirements.
- There are many other products in our range not covered by this leaflet. Tyre Changers, Workshop Presses, Axle Stands, Cleaning Cabinets, Trolley Cranes and Commercial Wheel Removal Trolleys.

- Fitted with hard wearing nylon front wheels and rear castor wheels for easy movement of crane when operational or folded.
- Manufactured from hollow steel box section for combined strength and lightness.
- Robust construction. Tested to 25% overload. Test Certificate supplied with each crane.
- 12 months guarantee.
- Heavy duty swivel hook fitted with safety latch.
