EQUIPMENT

 **British Made**

Model No. MF-400

Sheet Metal Folder

▶ The folder should be mounted in a vice, the vice must be fitted secure to a bench or similar structure.

▶ The folder is suitable for material up to 600mm long by 1.2mm.

▶ The folder will produce up to 100° folds, and is suitable to form channel, box, and top hat sections.

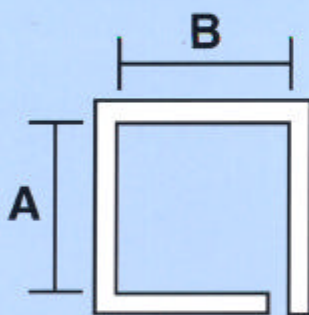

▶ The clamping blade is spring lift assisted for ease of operation.

▶ The clamping blade is controlled by two springs that are released to lift the clamping blade for loading or unloading metal, when the two clamping wing nuts are released.

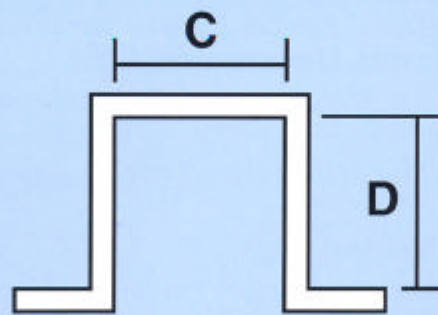

▶ The folder is ideal for all light metal folding with a maximum capacity of 600mm x 1.2mm.
